

EMERGENCY REPAIR CONTACT NUMBERS

If you are experiencing an emergency warranty issue, please call the appropriate trade partner at the numbers listed below. You will receive a response the same day and our trade partners will make their best effort to repair the issue(s) within 48 hours.

EMERGENCY SERVICE EXAMPLES

- Total loss of heat when the outside temperature is below 45 degrees.
- Total loss of electricity (*check with your utility company prior to contacting us*).
- Plumbing leak that requires disconnecting the entire water supply.
- Total loss of water (*check with your local water department for a general outage in the area*).
- Water heater is non-functional. Gas leak (*contact your utility company or HVAC contractor if leak is at the furnace or water heater supply lines*).
